### 3. Forms of certification of applicants for higher education

The attestation of higher education applicants for the Master's degree in Psychology, specialty 053 Psychology is carried out in the form of defense (demonstration) of the qualification work and attestation exam in the specialty. The attestation is carried out in

public.

Qualification work involves the independent solution of a complex task or a complex problem in the field of psychology, which is accompanied by research and/or the use of innovative approaches and characterized by the uncertainty of conditions and requirements. There can be no academic plagiarism, fabrication or falsification in the qualification work. The qualification work must be posted on the website of the institution of higher education or its structural unit, or in the repository of the institution of higher education.

The attestation exam in the specialty is conducted at an open meeting of the examination commission with the participation of at least half of the commission members with the obligatory presence of the chairman of the commission in oral form and consists of testing theoretical knowledge and practical skills. The attestation exam provides the assessment of mandatory learning outcomes determined by this educational program.

The attestation ends with the issuance of a document of the prescribed format on awarding the graduate with a Master's degree with the qualification "Master of Psychology. Lecturer of psychology. Psychologist".

## 6. Internal assurance system of higher education quality

Rivne State University of the Humanities has a system of providing by the higher education institution the quality of educational activities and the quality of higher education (internal quality assurance system), which provides for the implementation of such procedures and measures:

- 1) defining the principles and procedures for ensuring the quality of higher education;
- 2) monitoring and periodic review of educational programs;
- 3) annual evaluation of applicants for higher education, research and teaching staff of the institution of higher education and regular publication of the results of such evaluations on the official website of the institution of higher education, on information stands and in any other ways;
- 4) providing advanced training of pedagogical, scientific and scientific-pedagogical workers;
- 5) ensuring the availability of the necessary resources for the organization of the educational process, including the independent work of higher education students in each educational program;
- 6) ensuring the availability of information systems for effective management of the educational process;
- 7) ensuring publicity of information about educational programs, higher education degrees and qualifications;
- 8) ensuring an effective system for the prevention and detection of academic plagiarism in the scientific works of employees of higher education institutions and applicants for higher education;
- 9) other procedures and measures.

The system of providing by the higher education institution the quality of educational activities and the quality of higher education (internal quality assurance system) may be evaluated according to the request of Rivne State University of the Humanities by the National Agency for Quality Assurance in Higher Education or independent institutions accredited by it for evaluation and quality assurance of higher education for its compliance with the requirements for the quality assurance system of higher education approved by the National Agency for Quality Assurance in Higher Education, and international standards and recommendations for quality assurance in higher education.

Guarantor of the educational program,  
head of the project group

Prof. O.V. Kaminska
